

FILTRA[®] SYSTEMS

A Chickasaw Nation Industries Family Company

FEATURES AND BENEFITS

- **Three Shielding Layers:** Made with three layers of soft nonwoven fabrics to prevent you from breathing in or out respiratory droplets.
- **Simple to Breathe Through:** Very breathable nonwoven fabric makes breathing so easy you'll almost forget you are wearing a mask.
- **Confident Fit:** The nose bridge wire gives you a tight seal and the elastic earloops are round, soft, and comfortable around the ear.
- **Skin-Friendly:** Made of soft, nonwoven fabric that is odorless and soft to the touch avoiding skin irritation.
- **High-Quality Assembly Process:** Three precision folded layers conform to your face. Bendable wire nose piece improves your face mask seal. A lattice stitching edge ensure all the layers stay together. The ear-loop is firmly fused to stay attached.
- **FDA registered**
- **Made in Farmington Hills, Michigan USA**

Recommended for:

For Personal Use in Restaurants, Offices, Hospitals, Nursing Homes, Clinics, Schools, Gyms, and Anywhere Viruses and Bacteria Exist. Manufactured with a precision pleated expandable design for a comfortable, secure and lightweight fit.
